For Immediate Release

August 12, 2013

"An essential reference tool for all but the smallest academic, public, and business libraries in Canada... It is a model that other countries would do well to follow" -[ARBA](#)

Grey House Publishing Canada announces the 18th Edition of the *Canadian Environmental Resource Guide*

Grey House Publishing Canada is happy to announce the publication of the **Eighteenth Edition** of the *Canadian Environmental Resource Guide*. We are proud to release a text that has been recognized as Canada's most complete and detailed listing of environmental associations and organizations, government regulators and purchasing groups, product and service companies, special libraries, and much more.

After eighteen years of publication, we have divided this year's edition into **two volumes** for easier access to our comprehensive view of the Canadian environmental scene. Volume 1 offers a 2013 environmental industry update and guide to environmental products and services, while Volume 2 provides in-depth information on numerous industry resources.

This new edition of the *Canadian Environmental Resource Guide* provides **over 10,000 ways to access information** on every aspect of the environmental industry in unprecedented detail. Furthermore, we have made several major updates to the 2013/14 edition, including: revised & expanded **Chronology** and **Statistics** sections; update on the Canada-U.S. Air Quality Agreement; updated **Trade Show, Conference & Seminar** profiles; and updated **biographies of prominent Canadian Environmentalists!**

All profiles found throughout the *Canadian Environmental Resource Guide* include current contact information and key executives, as well as valuable details such as number of employees, financial and membership data, and additional services. The new two-volume guide is arranged into **four main sections** and **22 subsections**. Data is conveniently arranged into 14 indexes: the master, two-volume Entry Name Index, the Executive Name Index – found in both volumes, and additional indexes distributed throughout the text for quick and easy navigation.

Section 1, Volume 1, of the *Canadian Environmental Resource Guide – Environmental Update 2013*, is a one-year summary of environmental events. This section summarizes major environmental issues, including regulatory trends, company contracts, and critical decisions.

Section 2, Volume 1, *Environmental Products & Services Buyer's Guide*, contains detailed listings for companies offering products and services in the environmental sector. Special fields include: products/services/areas of expertise, working languages, recently completed/ongoing projects, markets served, and contacts.

Section 1, Volume 2, *Environmental Government Listings*, starts with a *Quick Reference Guide* to environmental agencies. You'll find current, detailed information on all

Announcement of the 18th Edition of the *Canadian Environmental Resource Guide*

Federal, Provincial, and Municipal agencies dealing with a variety of environmental issues. The rich data for municipal listings include water and waste treatment information, landfill statistics and more!

Section 2, Volume 2, *Environmental Resources*, has 3 main components: Associations, Law Firms and Special Libraries. The **2,315 associations** are arranged alphabetically; they are also indexed by subject and then separately by acronym. Highlighted in this section is a comprehensive guide to Canadian Law Firms that have declared environmental law as an area of interest. Following these extensive profiles is a list of **almost 900 special libraries and resource centres** arranged by subject and indexed alphabetically. This section also includes environmental magazines and journals, as well as distribution outlets for government publications and updated information on Educational Programs and Research Grants.

Furthermore, the 2013-2014 *Canadian Environmental Resource Guide* is available as part of Grey House Publishing Canada's Canada Information Resource Centre (CIRC) on the web (www.greyhouse.ca) where subscribers have full access to this rich database right at their fingertips. Trial subscriptions are available to the CIRC database by calling 866-433-4739. Ebook versions of this text are also available through Canadian Electronic Library, NetLibrary and GVRL.

This thoroughly researched and comprehensive volume is an asset to anyone with an interest in the environment, especially those doing business in the environmental industry, those looking for contacts in environment-related government offices, and activists or scholars involved in environmental studies and political action. Listings included in the 2013-2014 *Canadian Environmental Resource Guide* offer a great deal of information valuable not only to Canadians attuned to environmental needs and causes, but also to their counterparts in the United States. This title will be a prized addition to all public libraries, academic libraries serving environmental studies programs, and research centres of businesses that provide or use environmental products and services.
