Grey House Publishing Announces the Publication of *Canadian Environmental Resource Guide, 2026-2027*

Grey House Publishing Canada is happy to announce the publication of the 27th Edition of the *Canadian Environmental Resource Guide*. This resource has been recognized as Canada's most complete and detailed listing of environmental associations and organizations, intergovernmental offices and councils, product and service companies, lawyers with environmental specialties, and more.

This updated edition of the *Canadian Environmental Resource Guide* provides **over 12,000 ways to access information** on every aspect of the environmental industry in unparalleled detail. Furthermore, the 2026-2027 edition includes 48 biographies of prominent Canadian environmentalists, an expanded environmental chronology & statistics section, updates on intergovernmental offices & environmental trade representatives abroad, and trade show, conference and seminar profiles. All profiles include current contact information and key executives, plus valuable details such as number of employees, financial data, municipal waste & water management, additional services and more. Four indexes are provided at the end of the book for quick and easy navigation.

The **Environmental Update 2026** section offers a current look at the Canadian environmental picture. With revised and expanded Chronology, Statistics and more, Update 2026 includes Ranking Charts from Environmental Performance Indicators that show how Canada compares with the rest of the world in significant environmental issues. It also includes

new, revised or most recent available charts, tables, statistics, reports and more covering every aspect of Canada's environment: Air Quality; Waste; Water Quality & Quantity; Biodiversity & Conservation; Natural Resource Management; and Climate Change & Energy Efficiency. You'll also find 48 Biographies of prominent Canadian environmentalists, Abbreviations of environmental terms, and updated and expanded Trade Show, Conference & Seminar profiles.

The **Major Environmental Companies** subsection details nearly 500 top Canadian companies engaged in environmental-related activities, in areas such as Agriculture, Construction, Forestry, Mining, Oil & Gas and more. The thousands of manufacturers and service providers listed in the Products and Services Buyer's Guide offer products that deal with environmental issues from Absorbents to Wood Recycling, from Agriculture Management to Wind Energy Conversion. Company profiles are current and comprehensive, with descriptions, corporate details and key executives. The Law Firms section lists firms across Canada with an interest in environmental law, including details on the lawyers' areas of specialty. Rounding out this section are Associations/Organizations, detailing groups engaged in all areas of environmental activity in Canada.

The **Environmental Government Listings** are arranged three subsections, starting with updated information on Intergovernmental Offices & Councils and Environmental Trade Representatives Abroad. Following that are the Municipal listings, including Counties, Major Municipalities, Other Municipalities and Waste & Water Commission Authorities, among other categories. Listings in this subsection include detailed information on population and number of households, water and waste treatment, landfill statistics and special by-laws and bans, as well as key environmental contacts for each municipality. Updated Municipal Ranking Tables precede the directory listings.

The 2026-2027 *Canadian Environmental Resource Guide* is also available as part of Grey House Publishing Canada's Canada Information Resource Centre (CIRC) on the web (www.greyhouse.ca), where subscribers have full access to this rich database. In total, subscribers have access to 750 Special Libraries & Resource Centres, with details such as contact information, key executives, and descriptions of the services provided. Trial

subscriptions are available to the CIRC database by calling 866-433-4739. Electronic versions of this text are also available on all major e-Book platforms.

This thoroughly researched and comprehensive volume is an asset to anyone with an interest in the environment, especially those doing business in the environmental industry, those looking for contacts in environment-related government offices, and activists or scholars involved in environmental studies and political action. Listings included in the 2026-2027 *Canadian Environmental Resource Guide* offer a great deal of information valuable not only to Canadians attuned to environmental needs and causes, but also to their counterparts in the United States.

Canadian Environmental Resource Guide is available in print, by subscription and online via Grey House Publishing Canada at www.greyhouse.ca. Visit our website or call us now to take advantage of the most comprehensive picture of the Canadian environmental sector available.
