Grey House Publishing Announces the Release of *FPbonds: Corporate, 2025*

Designed by the professional and consumer executive, this resource offers a gold mine of information on the bank market today, providing important insights on publicly and privately held debt securities issued by Canadian incorporated companies, together with their features and provisions. Separate tables list convertible, exchangeable, retractable, and extendible debt issues. An additional table lists outstanding asset-backed securities.

Credit ratings are forward-looking measures which assess an entity's ability to make timely payments of interest and principal. As such, a **credit rating combines both quantitative and qualitative analysis**.

In addition, *FPbonds: Corporate* **includes ratings supplied by Dominion Bond Rating Service (DBRS)**. The DBRS ratings are presented in two tables, in addition to being shown with each issue. The first table lists issues by rating, from lowest to highest. Generally, a DBRS rating of BBB is considered to be investment grade and anything below that could be considered as non-investment grade or high-yield debt. Additionally, unrated securities are also considered to be high-yield if its spread to a comparable Government of Canada issue is substantially higher than the spread between investment-grade corporate bonds and Government of Canada issues. A second table lists all rated issues by company.

This must-have edition also contains brand-new front matter:

- **Central Bank Liquidity Policy in Modern Times**

FPbonds: Corporate is available in print, by subscription and online via Grey House Publishing Canada at www.greyhouse.ca. Don't delay! Order now to take advantage of this volume offering outstanding information on publicly and privately held debt securities issued by Canadian incorporated companies.
