## **Grey House Publishing Announces the Release of *FPequities: Preferreds & Derivatives, 2023***

Grey House Canada is proud to announce the 2023 edition of *FPequities: Preferreds & Derivatives*. This title is the eighth to be published by Grey House Publishing Canada and is organized into four main sections: Introductory Material, Preferred Shares, Ratings, and Derivatives.

Starting with **Introductory Material**, this section includes excerpts from the Bank of Canada content on the current state of financial markets in Canada. The **Preferred Shares** section lists outstanding publicly and privately held preferred shares with detailed descriptions of their features. The **Ratings** section ranks these shares and Income Trusts with ratings supplied by Dominion Bond Rating Service Limited (DBRS).

Finally, the **Derivatives** section covers four distinct areas: *Preferred Securities*, also called hybrid securities as they contain features of both debt and preferred shares; *Structured Products*, trusts created to hold a portfolio of a single or group of similar companies; *Income Trusts*- which are presented in a tabular format with each entity listed alphabetically within their area of operations; and *Warrants*, which are publicly traded and are outstanding, and are listed by expiry date.

For the past 80 years, the Financial Post Data Group has been Canada's #1 source for corporate and financial information on publicly traded companies. The Financial Post provides detailed financial and securities data, directory information, and media monitoring on thousands of Canadian public companies, and is known for producing the golden standard of publications for the Canadian financial services industry.

*FPequities: Preferreds & Derivatives* is available in print, by subscription and online via Grey House Publishing Canada at [www.greyhouse.ca](http://www.greyhouse.ca). Don't delay! Order now to take advantage of this volume offering a guide to Preferred Shares, Ratings, and Derivatives.
