

## Top Ten by Industry

The following pages provide an industry study for the Top Ten companies in each of 24 Industry Groups of the Global Industry Classification Standard (GICS®). We have performed this screening on 1,058 companies covered in FP Corporate Surveys and in FP Corporate Analyzer. As part of our web-based FP Advisor, Corporate Analyzer allows the user to perform extracts based on a wide number of criteria to establish investment worthiness. There were no Corporate Analyzer companies in the Household & Personal Products industry group this year.

We hope you find this sample useful and will consider a subscription to FP Corporate Analyzer and to other Financial Post Data investment analysis products in FP Advisor.

**NOTE:** All data is for calendar 2018 year end results, or for fiscal years ended between July 2018 and June 2019. Net income in the following tables is defined as net income attributable to equityholders. The three key ratios: Net Profit Margin, Return on Equity and Return on Assets are based on the same calculations which appear in the financial table attached to the individual coverage for each company. All financial data is in Canadian dollars having been converted from foreign currencies for those companies whose statements are reported in such foreign currencies. Data for periods other than 11 to 13 months or 48 weeks to 56 weeks is annualized.

## The Year in Review

Many changes have crossed the Canadian corporate landscape since our last annual survey publication. The details are located within the individual coverages found throughout this book and its sister publication, FP Survey – Industrials 2019.

Our team of dedicated analysts follows these companies on a daily basis and compiles a collection of subscription products that provide the breadth and depth of corporate activity on a calendar year basis.

The following synopsis of activity covers the period from July 1, 2018, to August 18, 2019, and has been extracted from our FP Dividends service.
